Terhadap Hasil Belajar IPA Materi Sumber Energi Di Kelas
IVSD NEGERI 023893 Jl. Jambi No. 10 Rb Kecamatan
Binjai Selatan T.P 2022/2023**

ABSTRAK

Tujuan penelitian ini Untuk (1) mengetahui hasil belajar IPA siswa tanpa menggunakan media *scrapbook* pada materi sumber energi siswa kelas IV SDN 023893 Jl. Jambi No. 10 Rb Kecamatan Binjai Selatan. (2) Untuk mengetahui hasil belajar IPA siswa yang di ajarkan dengan menggunakan media *scrapbook* pada materi sumber energi siswa kelas IV SDN 023893 Jl. Jambi No.10 Rb Kecamatan Binjai Selatan (3) Untuk mengetahui pengaruh signifikan antar pembelajaran dengan media *scarpbook* terhadap hasil belajar IPA materi sumber energi siswa kelas IV SDN 023893 Jl. Jambi No.10 Rb Kecamatan Binjai Selatan. Populasi dalam penelitian ini adalah seluruh siswa kelas IV SDN 023893 Jl. Jambi No.10 Rb Kecamatan Binjai Selatan berjumlah 40 orang. jenis penelitian ini adalah quasi eksperimen atau eksperimen semu. Teknik pengumpulan data yang dilakukan peneliti ini adalah tes. Setelah melakukan analisis data terhadap hasil pembelajaran siswa yang diajarkan dengan menggunakan media *scrapbook* materi sumber energi berdasarkan perhitungan nilai rata-rata siswa kelas IV SDN 023893 Jl. Jambi No.10 Rb Kecamatan Binjai Selatan diperoleh nilai 78,5 berkategori cukup. Sedangkan hasil belajar siswa yang diajarkan dengan tanpa menggunakan media dalam materi sumber energi berdasarkan nilai rata-rata 63,5 berkategori kurang mampu. Terdapat pengaruh signifikan menggunakan media *scrapbook* materi sumber energi siswa kelas IV SDN 023893 Jl. Jambi No.10 Rb Kecamatan Binjai Selatan

Kata Kunci : Hasil Belajar, *Scrapbook*, Media Pembelajaran

Herodiani Br Tarigan NPM : 1905030149, The Influence of Scrapbook Media on Science Learning Outcomes Material Sources of Energy in Class IV SD NEGERI 023893 Jl. Jambi No. 10 Subdistrict South Binjai District

ABSTRACT

The purpose of this study is to (1) find out the results of students' science learning without using scrapbook media on energy sources material for class IV students at SDN 023893 Jl. Jambi No. 10 thousand South Binjai District. (2) To find out the science learning outcomes of students who are taught using scrapbook media on energy sources material for class IV students at SDN 023893 Jl. Jambi No. 10 Rb, South Binjai District (3) To determine the significant effect of learning with scarpbook media on learning outcomes in science material for energy sources for class IV students at SDN 023893 Jl. Jambi No. 10 Rb, South Binjai District. The population in this study were all fourth grade students at SDN 023893 Jl. Jambi No.10 Rb, South Binjai District, totaling 40 people. This type of research is quasi-experimental or quasi-experimental. The data collection technique used by this researcher is a test. After analyzing the data on the learning outcomes of students who were taught using scrapbook media, energy source materials based on calculating the average value of fourth grade students at SDN 023893 Jl. Jambi No.10 Rb, South Binjai District, obtained a score of 78.5 in the sufficient category. While the learning outcomes of students who are taught without the use of media in energy sources based on an average value of 63.5 are categorized as underprivileged. There is a significant effect of using scrapbook media on energy sources for fourth grade students at SDN 023893 Jl. Jambi No. 10 Rb, South Binjai District

Keywords: Learning Outcomes, Scrapbook, Learning Media
