# PENGEMBANGAN PENILAIAN BERBICARA
KELAS IV SDN.105290 KOLAM
KEC.PERCUT SEI TUAN

ABSTRAK

Penelitian ini termaksud penelitian pengembangan *(Research and Development)* bertujuan untuk mengembangkan Penilaian Berbicara. Subjek penelitian ini adalah siswa dan guru kelas IV SDN.105290 Kolam. Penelitian pengembangan ini untuk mengetahui tingkat kevalidan dan keefektifan Penilaian Berbicara. Model pengembangan yang digunakan dalam penelitian ini adalah *ADDIE (analysis, design, development, implementation, evaluation)*. Instrument yang digunakan untuk mengukur kevalidan dan keefektifan Penilaian Berbicara adalah lembar validasi dan lembar angket respon guru. Hasil penelitian menunjukkan bahwa hasil validasi dari validator ahli evaluasi prentase 75% dengan kategori valid. Validator ahli bahasa diperoleh data presentase sebesar 85% dengan kategori sangat valid. Adapun uji keefektifan lembar penelilaian berbicara yang dilakukan oleh guru kelas IV diperoleh data presentase sebesar 80% dengan kategori sangat efektif. Dengan demikian penilaian berbicara pada pada kelas IV SDN. 105290 Kolam yang dikembangkan dinyatakan sudah valid dan efektif.

Kata Kunci : Pengembangan, penilaian berbicara

DEVELOPMENT OF SPEAKING ASSESSMENT

CLASS IV SDN. 105290 KOLAM

KEC. PERCUT SEI TUAN

ABSTRACT

This research is referred to as development research (Research and Development) which aims to develop Speaking Assessment. The subjects of this research were students and teachers of class IV SDN.105290 Kolam. This development research is to determine the level of validity and effectiveness of the Speaking Assessment. The development model used in this research is ADDIE (analysis, design, development, implementation, evaluation). The instruments used to measure the validity and effectiveness of the Speaking Assessment are validation sheets and teacher response questionnaire sheets. The research results show that the validation results from the expert validator percentage evaluation are 75% in the valid category. Linguist validators obtained percentage data of 85% with a very valid category. As for the effectiveness test of the speaking assessment sheet carried out by the class IV teacher, the percentage data was obtained at 80% in the very effective category. Thus the speaking assessment is in class IV SDN. 105290 The pool being developed is declared valid and effective.
