

**PENGARUH MODEL KOOPERATIF TIPE *TEAMS GAMES TOURNAMENT* (TGT) BERBANTUAN KARTU PERTANYAAN
TERHADAP HASIL BELAJAR SISWA IPAS KELAS V
UPT SD NEGERI 064026 MEDAN TUNTUNGAN
T.P 2024/2025**

ABSTRAK

Penelitian ini bertujuan untuk mengetahui: 1) Hasil belajar IPAS siswa tanpa menggunakan Model Kooperatif Tipe *Teams Games Tournament* (TGT) Berbantuan Kartu Pertanyaan pada mata pelajaran IPAS materi sistem pernapasan manusia T.P 2024/2025 diperoleh nilai rata-rata 76. 2) Hasil belajar IPAS siswa dengan menggunakan Model Kooperatif Tipe *Teams Games Tournament* (TGT) Berbantuan Kartu Pertanyaan pada mata pelajaran IPAS materi sistem pernapasan manusia T.P 2024/2025 diperoleh nilai rata-rata 90. 3) Terdapat pengaruh yang signifikan dengan menggunakan Model Kooperatif Tipe *Teams Games Tournament* (TGT) Berbantuan Kartu Pertanyaan terhadap hasil belajar IPAS kelas V UPT SD Negeri 064026 Medan Tuntungan T.P 2024/2025. Jenis penelitian ini menggunakan jenis penelitian *Quasi Eksperiment*. Penelitian ini melibatkan populasi 55 siswa kelas V UPT SD Negeri 064026 Medan Tuntungan, yang telah dipilih 28 dari kelas kontrol dan sampel 27 siswa dari kelas eksperimen dan menggunakan Teknik sampel *Non probability Sampling* yaitu sampling jenuh. Metode pengumpulan data menggunakan Lembar Kerja Peserta Didik (LKPD) berbentuk pilihan berganda.

ABSTRACT

This study aims to determine: 1) The results of students' social studies learning without using the Cooperative Model Type Teams Games Tournament (TGT) Assisted by Question Cards in the subject of social studies on the human respiratory system in the academic year 2024/2025 obtained an average score of 76. 2) The results of students' social studies learning using the Cooperative Model Type Teams Games Tournament (TGT) Assisted by Question Cards in the subject of social studies on the subject of human respiratory system in the academic year 2024/2025 obtained an average score of 90. 3) There is a significant influence by using the Cooperative Model Type Teams Games Tournament (TGT) Assisted by Question Cards on the results of social studies learning in class V of UPT SD Negeri 064026 Medan Tuntungan in the academic year 2024/2025. This type of research uses a Quasi Experimental research type. This study involved 55 fifth grade students of UPT SD Negeri 064026 Medan Tuntungan, 28 of whom were selected from the control class and 27 students from the experimental class and used the Non-probability Sampling technique, namely saturated sampling. The data collection method used Student Worksheets (LKPD) in the form of multiple choices.
