**ABSTRACT**

*This study aims to determine the validity and practicality of developing interactive learning videos on the topic of Pancasila values for fourth-grade students at SD Swasta Mulia Medan. This research is categorized as research and development (R&D) using the PPE (Planning, Production, Evaluation). The study was conducted at SD Swasta Mulia Medan, located at Jalan Kenanga Sari No. 33, Tj Sari, Medan City, North Sumatra. The research took place in January 2025 over one day. The subjects of the study were 20 fourth-grade students at SD Swasta Mulia Medan. The results indicate that the validity of the developed video was assessed using validation sheets, with scores from the expert validators. The material expert validator gave a score of 93%, while the media expert validator gave a score of 96%, classifying it as highly valid. The practicality aspect was evaluated through teacher response questionnaires, which resulted in a score of 96%. Based on these findings, it can be concluded that the developed interactive learning video is categorized as practical. The final conclusion of this research is that the developed interactive learning video is valid and practical for use in the learning process.*
